

**WONDER KIDS**  
Pre-School & Kindergarten

## PROSPECTUS

Welcome to WonderKids Preschool & Kindergarten, a progressive year-round preschool providing Nasik City families with a child-centered approach to early learning, collaborative family atmosphere, and a safe, inspiring environment that encourages exploration and creativity.

Our early-childhood program engages children ages 2-6 years with developmentally appropriate activities and focuses on the “whole child.” Through creative exploration and play, we support each child’s cognitive, physical, emotional, and social growth. Our program incorporates social and environmental awareness into our curriculum and emphasizes earth-friendly practices and healthy choices.

## Curriculum

### **PlayGroup (2-3 year old)**

This age group thrives on new experiences, and we fulfill this need by providing care, directions, and projects that allow them to explore the world without stress or pressure. We aim to work with each child as an individual and ensure that each day is a fun-filled adventure.

### **Nursery (3-4 year old)**

Our Intermediate program sets the stage for children's success in school and in life. Our staff provides ongoing efforts to value children as individuals and embrace their unique contributions

to the classroom community, which will inspire in them a love of learning to last a lifetime. We believe that children learn best when they are actively involved with materials and peers. That is why we place so much emphasis on setting up the proper learning environment and building positive, meaningful relationships with children and their families. We all play together, cooperate, and share.

## **Kindergarten (4-6 year old)**

By encouraging curiosity, compassion, and a love of learning, our dedicated staff inspires imagination. Through richly textured learning experiences and a carefully designed environment, we encourage children to seek out information and look for facts. We value wondering and playing with possibilities. Teachers encourage creative exploration through art, music, and movement. Children also experience a rich variety of learning experiences including science, block constructions, books and sensory play.

## **Safe & Secure Environment**

We believe children learn better when they feel they are in a secure and comfortable environment. As an eco-healthy preschool & kindergarten, we take great care in creating a safe and healthy environment that inspires imaginations and protects the health of our children and staff.

## **Home Away from Home**

We are housed in a 3000 square foot facility, including 5 sun-drenched classrooms, an outdoor play area. Our classrooms are all bright, expansive, properly ventilated. Bathrooms are across the classrooms to provide easy and safe access for our students.

## **Non-toxic Cleaners**

Your child will spend a great deal of time with us. So, we strive to create a home away from home for your child. We take great pride in the way our place looks, smells, and feels. On a daily basis we conduct facility inspections and clean our premises with child-safe, non-toxic cleaners.

## **Secure Premises**

Our number one priority is the safety of the children in our care. To ensure your child's safety, WonderKids employs technology that allows our staff instant access to your child's arrival and departure times and the names of people authorized for drop off and pick up. Our top notch security system ensures that only authorized personnel are admitted into our premises.

## **Dedicated Teachers & Staff**

Staff members strive to be aware of each child's needs and learning readiness, and they attempt to meet these needs through a wide range of preschool & kindergarten activities.

We provide your family with the best early childhood educators who are certified, because we understand that as early childhood educators, we must address the development of the whole child.

We invite you to get to know us. Please use this contact information to let us know of any questions and concerns.
